

Sub Contract Payment Sheets - BUG FIX

- The Posting Process for Subcontract Payment Sheets had a bug with the new 9.6.0.1 Release. This problem has been corrected.

A screenshot of a process log window with a scroll bar on the right. The log contains the following text:

```
Updating historical payment sheet file
Updating Job Cost System
Updating General Ledger System
Updating Accounts Payable Files
Exception Error:APSPJBat: Field 'PaymentHoldSetting' not found
Process Terminated...
```

The error message line is highlighted in yellow.
