RELEASE NOTES

Version 9.6.0.6 - Released on 1-16-2018

WHAT'S NEW?

(New Features or Functionality)

2018 Update Fees Release

This update represents the first software release for 2018 and will require that the 2018 Update Fees are current. AccuBuild Version 9.6.0.5 is the last update for the 2017 Update Fees renewal. Please contact AccuBuild Support for more information on update renewals.

IMPROVEMENTS

(What Improvements have been applied to existing features?)

PAYROLL - 2018 Payroll Tax Updates for the following states

- Mississippi
- Missouri

PAYROLL - 2018 Federal Withholding Tax Table Updates Released by IRS

- A new Tax Bill was signed into law on December 22, 2017 which changed the federal withholding brackets and rates for 2018. These new tax tables have now been released by the IRS and are included in this update.
-

FIXES

(What bug fixes have been addressed?)

PROJECT MANAGEMENT - Daily Report Bug Fixes

- When Duplicating a Daily Report, there was a record locking issue that was introduced in the 9.6.0.5. Release that was interfering with the associated transaction records for the duplicate Daily Report. This issue has been corrected.

(Continued)

OPERATIONS

(Any Ops Updates, like Server upgrades?)

Nothing in this release.
