 - Vermont
 - Mississippi
 - Massachusetts

PAYROLL - Aatrix Tax Types Table Revised Update for 2019

- The 2019 *AatrixTaxTypes* table has been updated with the most recent tax form settings and corrections for local tax descriptions for 2018 and 2019 tax forms.

PAYROLL - BUG FIX

- The *Payroll Handwritten Check* Screen had a problem with employees that were set up with multiple state codes in the employee file and the *Home State* setting was enabled for one of the states. This issue would cause a duplicate state code error in some situations and the work around was to disable the employee *Home State* setting. This issue has been resolved in this release and should work correctly now when the Home State setting is enabled. **[PMID Ref No 10827]**
